English Language Proficiency Assessment Speaking Score

Superior (level 4)  
Demonstrates ability to discuss topics extensively, structure and defend opinions, and hypothesize

Superior (4) – Communicates effectively in extended discourse on a wide range of topics from both concrete and abstract perspectives. Supports opinions and hypothesizes, and can handle linguistically unfamiliar topics and situations using native-like strategies. Sporadic errors may appear; however, listeners are not distracted.

Advanced (level 3)  
Demonstrates ability to narrate and describe in major time frames with connected paragraph discourse

Advanced High (3.7-3.9) – Handles at least 50% of superior tasks, though patterned errors may appear. With some consistency can support opinion with structured arguments; however, performance will feature breakdown such as discussing topics more comfortably concretely, resorting to description or narration in place of argument, or lacking the precise language needed to adequately address the task.

Intermediate (level 2)  
Demonstrates ability to express personal meaning in predictable situations with strings of sentences

Intermediate High (2.7-2.9) – Handles at least 50% of advanced tasks, though errors and hesitation may occur. With some consistency can narrate and describe in major time frames; however, speech will feature breakdown such as failure to maintain narration in the appropriate time frame, disintegration of connected discourse, or inability to be understood by listeners not accustomed to non-native speakers.

Intermediate Mid (2.3-2.6) – Handles a variety of communicative tasks in predictable social and work situations with strings of sentences and some paragraphing. With the advanced level tasks of narration and description, can provide information but may have difficulty linking ideas, maintaining appropriate time frame, and using communicative strategies, such as circumlocution.

Intermediate Low (2.0-2.2) – Handles a limited number of communicative tasks in predictable social and work situations with strings of sentences. Creates meaning with language, though often filled with hesitancy and inaccuracies while searching for grammatical structures and vocabulary. Can generally be understood by sympathetic listeners, especially those accustomed to non-native speakers.

Novice (level 1)  
Communicates minimally with mostly formulaic phrases and sentences

Novice High (1.7-1.9) - Handles at least 50% of intermediate tasks, but unable to sustain performance. Conversation restricted to a few topics.

Mid (1.3-1.6) / Low (1.0-1.2) - Communicates minimally and with difficulty.

Scale adapted from Oral Proficiency Interview Proficiency Guidelines (American Council of Teachers of Foreign Languages)

For graduate students participating in TATTO, the teaching recommendations are:

Superior.......................... Full Teaching
Advanced – all sublevels......... Supervised Teaching
Intermediate High............... Restricted Teaching
